|------------------------------|------------------------|----------------------|--|
| Office Action Summary | Application No. | Applicant(s) | |
| | 10/816,288 | JUNGER, MICHAEL CARL | |
| | Examiner | Art Unit | |
| | Laura A. Bouchelle | 3763 | |

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 12 October 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 4,5,7 and 9-18 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 4,5,7,9-12,15-18 is/are rejected.
- 7) ☒ Claim(s) 13 and 14 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
2. ☐ Certified copies of the priority documents have been received in Application No. _____.
3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).
- * See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 4, 5, 9, 11, 12, 15, 18 rejected under 35 U.S.C. 102(e) as being anticipated by Bishop et al (US 6979339). Bishop discloses an instrument for oocyte recovery comprising a handle 25 and outer needle 10 having a beveled tip 16 a side port 28 in the handle for a source of flushing liquid, a connector portion 31, an oocyte aspiration cannula 11 connected to an aspiration assembly 3.

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claim 7 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bishop in view of West et al (US 6273877). Claim 7 differs in calling for the tip to further include a secondary bevel. West teaches a needle having a tip with a primary bevel and a secondary bevel that provide a sufficiently sharp distal end to penetrate the skin with little risk of excessive force

urging the needle too far into the body (Col. 3, lines 15-20). Therefore, it would have been obvious to one of ordinary skill in the art at the time of invention to modify the outer needle of Bishop to have a secondary bevel as taught by West to provide a sufficiently sharp distal end to penetrate the skin with little risk of excessive force urging the needle too far into the body.

5. Claim 10 is rejected under 35 U.S.C. 103(a) as being unpatentable over Bishop in view of Davis et al (US 6018676). Claim 10 differs from Bishop in calling for a portion at the distal end of the outer needle to be treated to improve its ultrasound echo characteristics. Davis teaches a needle comprising indenting, patterning or knurling to increase echogenicity of the needle (Col. 2, lines 35-39). Therefore, it would have been obvious to one of ordinary skill in the art at the time of invention to modify the outer needle of Bishop to have indenting, patterning or knurling as taught by Davis to increase its echogenicity.

6. Claim 16 and 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bishop in view of Knox (US 3561596). Claim 16 differs from Bishop in calling for the assembly to be supplied in a sterile peel open package. Claim 17 differs in calling for the assembly to be provided in a disassembled state. Knox teaches a packaging for syringes, needles and the like wherein each element of a device can be supplied as a separate unit in an individual peel apart package that can be easily opened and kept sterile before use (Col. 4, lines 13-23). Therefore, it would have been obvious to one of ordinary skill in the art at the time of invention to modify the device of Bishop to be in a disassembled state in peel apart sterile packages as taught by Knox so that the package can be easily opened and kept sterile before use.

Allowable Subject Matter

7. Claims 13, 14 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments with respect to claims 3-18 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura A. Bouchelle whose telephone number is 571-272-2125. The examiner can normally be reached on Monday-Friday 8-4.
